

Exotic Animal Transport

Catalog # 39022

Our exotic animal transport crate is made for large animals such as: Tigers, Lions, Bears, cubs, etc.

The crate shown has dimensions of: 78L x 52T x 41W. All Aluminum Construction makes the crate light and durable for easy transport. Crate has a dry weight of 378#.

Transport Crate can be moved with a forklift or pallet jack.

A guillotine style door on one end lifts up and is fully removable. It is locked in place with two heavy duty gate latches.

A horizontal sliding door on one end slides over and is fully removable, it is locked in place with two heavy duty gate latches.

There are two removable waste pans on each end of crate, they are locked in place when the doors are closed.

A stainless steel water dish is bolted to the inside of the crate, a pipe on the outside is used to fill the dish with water.
