

Gym Sets & Ferris Wheels

Catalog # 34050 & 48706

The Gym Sets are available in any shape and size. They are constructed of 4" PVC, and the ferris wheels are constructed of light weight aluminum.

PVC legs have rounded caps to protect the floor and are weighted to maintain position.

The Ferris Wheel is supported by UHMW saddles and clamped by two Stainless Steel U-Bolts.

Ferris Wheel turns on a 1-1/2" Galvanized pipe axle.
