

# Video Rack

## Catalog # 37077

The Video Rack is constructed of all Stainless Steel and Lexan materials.

A One over One design, the cages are 4.5 Ft.2 with horizontal animal door, transfer box rod, and 4" locking and non-locking casters.

Lexan side window panels create an unobstructed view of the animal for monitoring purposes.

Cages have squeeze back that have UHMW bearing blocks to prevent metal on metal contact, making it quiet and easy to operate.

A removable dry waste pan is provided.

A variety of sizes can be made to your specifications.
